

TV Start Procedure

The television is connected to the Internet via Wi-Fi. It is not connected to an analogue antenna. DTT channels are only accessible via the CANAL+ application.

Press the standby button on the remote control

Wait for the TV to fully initialise.

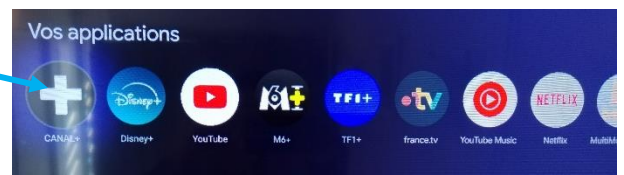

Waiting for information to be "Connected to the Internet" appears at the top right of the screen

Use remote control arrows

to navigate to the Canal+ application icon

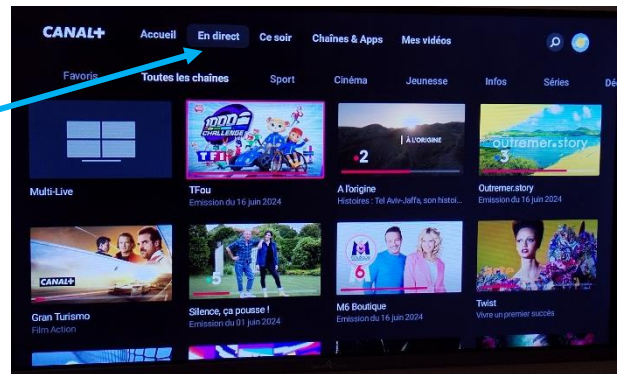

Press the OK button

Application launches

With the remote control arrows

Select "Live" to access all the TNT & Canal + channels

Select "Home"

To access all movies streaming from channels Channel +

Good viewing!
